

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PROCEEDINGS
OF THE
ACADEMY OF NATURAL SCIENCES
OF PHILADELPHIA.
1861.

January 1st, 1861.

Vice-President BRIDGES in the Chair.

Eighteen members present.

Papers were presented for publication entitled,

“Catalogue of the Marine Fishes of the Eastern Coast of North America from Greenland to Georgia, by Theodore Gill.”

“Description of a new species of the genus *Anableps* of Gronovius, by Theodore Gill.”

“Synopsis of American Cretaceous Brachiopoda, by Wm. M. Gabb.”

Which were referred to Committees.

Mr. Sergeant announced the death on the 25th ult. of Mr. John H. Markland; also, at London, on the 8th ult., of Dr. Charles Huffnagle, late members of the Academy.

January 8th.

Vice-President VAUX in the Chair.

Twenty-six members present.

A paper was presented for publication entitled

“On the classification of the *Eventognathi*, or *Cyprini*, a sub-order of *Teleocephali*, by Theodore Gill.” Which was referred to a Committee.

An extract of a letter was read from Col. J. D. Graham, dated Chicago, Dec. 17th, 1860, informing the Academy of the discovery by him of a diurnal tide in Lake Michigan.

1861.]
